

Switch to a TPA Who Cares...

- Are you tired of being a small fish in a big pond?
- Frustrated with adjuster turnover & lack of experience?
- Does your current TPA still have the first two accounts they wrote 31 years ago?
- Do you have complete access to claim files and the ability to generate useful reports for cost analysis and loss prevention?

Too Good To Be True?

Let ECS show you the kind of TPA you truly deserve!

Employer's Claim Service, Inc. (ECS) is a specialized Workers' Compensation Third Party Administrator (TPA), handling Illinois claims. We were established over 31 years ago and pride ourselves on consistently providing prompt and proper claims administration. Our goals are the same as yours, to reduce costs and improve your level of service and communication. ECS has the experience, knowledge and flexibility to meet your needs and exceed your expectations.

Is your goal to administer your own claims and eliminate the need for a TPA altogether?

If so, we can lease you our superior Claim Tracking System. It is paperless and will do it all.
